Early Termination Charges

When the Wholesale Provider orders Services there will be a minimum contract length of 12 or 24 months (as set out in the Order) beginning on the date on which the End-User is connected to the Network (“**Minimum Term**”). If the Wholesale Provider or it’s End-Users decide to stop receiving a Service (except where the Wholesale Provider has a right to terminate the Service without paying an Early Termination Charge under the Wholesale Access Services Wholesale Access Provider Agreement) within the Minimum Term, the Wholesale Provider will have to pay an Early Termination Charge. Where the Wholesale Provider cancels an Order prior to the installation date, Fibrus Networks may at their discretion: a) apply an order administration fee of £150.00; b) apply a charge for installation, construction, labour, and/or equipment costs incurred in provisioning such Order prior to cancellation; and/or c) apply any other charges or fees as set out under the Wholesale Access Services Wholesale Access Provider Agreement.

In such case, payment shall be due and payable by the Wholesale Provider to Fibrus Networks in accordance with the payment terms in the Wholesale Access Services Wholesale Access Provider Agreement which can be found at <https://hyperfastni.com/wholesale-partners>.

Early Termination Charges are calculated as follows (such fees are in addition to any charges or fees set out in this Price List or the Wholesale Access Services Wholesale Access Provider Agreement):

1. The monthly charge multiplied by the remainder of your Minimum Term (**“Termination Fee”**).
2. The Termination Fee will be due and payable in accordance with the payment terms in the Wholesale Access Services Wholesale Access Provider Agreement.

Non-Standard Installation Charges

In the event of a non-standard installation, Fibrus Networks will notify the Wholesale Provider of any additional Charges as part of the order and installation process before proceeding with installation.
